

# IRAJE PRIVILEGED ACCESS MANAGER

Implementation of IRAJE PAM in a USD 17 Bn Group

## Introduction

Customer is one of the largest Indian multi-national firms with revenue exceeding USD 17 Bn and leading engineering company in India headquartered in Mumbai, India. The company has business interests in engineering, construction, manufacturing goods, information technology, and financial services, and has offices worldwide.

### Key challenges in existing PAM solution

- Lack of visibility on enterprise privileged accounts
- Compliance requirement to implement an enterprise wide PAM
- Security incidents within the organization
- Governance issues with multiple vendors supporting their critical systems

### Key challenges in existing PAM solution

- Iraje PAM deployed in multiple entities group wide
- Successful password enforcement of devices through Iraje PAM
- Visibility and Control on privileged passwords

### Key challenges in existing PAM solution

“Iraje PAM is an easy to implement and use. The organization change management also was reasonably easy as the solution is very stable”

**CISO**

## Iraje PAM solution

Customer has more than 15+ group companies spread around the country and its infra spread over multiple cities.

They got reference from one of our existing customers who recommended them to try Iraje PAM for their enterprise PAM requirements.

Iraje PAM was evaluated as part of their process. They tested our solution for over 2 months and gave their users to use the solution.

Post a 1-year rigorous evaluation with 4 POCs and multiple customer visits and reference checks, customer chose Iraje to manage their enterprise PAM requirements starting with their Corporate entity.

Post successful implementation, they implemented Iraje PAM for 9 more of their entities in India with users around the world.

## Outcomes and Benefits

The customer is happy with the quick implementation and the identity and access governance provided by Iraje PAM. Improvements were in the space of:

- User experience & simplicity
- Integrate every possible device in PAM
- Smarter audit trails and reporting
- Better visibility and control on the infrastructure
- Support provided by Iraje team
